Quality, Health, Safety & Environment

SEAMOG

HEALTH, SAFETY, & ENVIRONMENT POLICY

SEAMOG Group Sdn Bhd (SEAMOG) is fully committed to prioritize and achieve the highest level of Occupational Health, Safety, and Environment (HSE) Standards in all of our business and non-business activities. We will achieve this through the successful implementation of our SEAMOG HSE Management System.

The key objective of this system is to ensure a safe working environment for all and compliance to the regulations of the Department of Occupational Safety and Health (DOSH) and other relevant bodies.

Therefore, all employees and contractors are to give their full commitment and priority in the following:

1. Ensure that workplace hazards are identified and any risk is assessed and controlled using best practices.
2. Ensure that all incidents are prevented through efficient management of risk.
3. Ensure that safe work practices are promoted and implemented throughout the organization through safety programs and audits, and
4. Ensure continuous improvement of SEAMOG Occupational HSE Management System.

All Occupational Health, Safety and Environment matters shall be communicated to relevant parties to ensure clear and effective understanding.

All employees and contractors are expected to strictly adhere to this policy at all times.
